

2025-03-13 Meeting notes

 **Date** [🔗](#)

Mar 13, 2025

Start of sprint 3.

Scrum Master: Karoline

Finished most basic functionalities from in previous sprints [🔗](#)

- Register user
 - Register personal trainer
 - Create workout
 - Delete workout
 - Start workout session
 - Save workout session
 - Exercise list (more exercises should be added)
-

Agenda [🔗](#)

- Look at possible design changes and UI/UX wireframes
 - Need to change how we work on branches in Git. Creates too many merge conflicts.
 - How will user choose a PT?
 - Choose from categorized list
 - PT should have a bio and a type
 - Attempt test driven development?
-

Sprint goals [🔗](#)

- User can browse and select a personal trainer
 - Create chat room with PT or other users
 - Share workouts through chat
 - Improve overall UI/UX
 - Transition to feature branches on Git
 - Test driven development
-

Tasks [🔗](#)

- Redesign UI for dashboard & exercise pages: Karoline
- Chat room: Andreas & Daniel
- Personal trainer assigning (backend): Andreas
- Personal trainer list (backend): Max

- Tests: August
